

Security & Loss Prevention Solution

According to the small business administration, as many as 30% of all employees do steal, and another 60 % will steal if given sufficient motive and opportunity.

And selling Age Sensitive Products to Minors will result in stiff penalties and/or closure. Taking chances when Sting Operations are in full force is poor business practice. Eliminate the human error factor and maintain due diligence proof.

AVI-4000 allows you to overlay POS receipt data and Driver License card scan data. Drastically reduces temptation for theft and recording of ID scan provide proof of due diligence. **AVI-4000 interfacing with the POS cash register and CAV-3500** is the comprehensive solution to loss prevention and security at the retail store environment. Ask a CEO Enterprises representative to find out how it works.
